6, Plumtree Close,  
Winscombe, Somerset.

Winscombe 2023

AUGUST 1966

Dear O.M.

Many of our Group will be sorry to hear that Morris Palmer G6OZ passed away recently at his home in Weston. We sent a wreath, and Weston members attended the funeral. Morris lived in Weston for two years after his retirement as a Baker in the Staple Hill area where this Group knew him. R.I.P.

Our meeting this month is on Friday, August 19th. at 7.30p.m. at the Royal Fort Physics Lecture Theatre. G.44. As it is the season for holidays, there is no set lecture, but again an opportunity for you to have a good chinwag with the locals. If anyone has anything to show or natter on for quarter of an hour, do let me know.

Last month we had a good jolly meeting when Hugh Davis showed and explained the new Amateur Bands Receiver that he is making and a very professional job he is making of it too. Eddie Davies displayed and demonstrated his " Debugging detector" and a long snakey S.W.R meter, and on top of all this, we discussed Longleat Rally, VHF Field days over the weekend September 3rd & 4th., and whether we should take part in the Ideal Homes & Trades Exhibition at the Victoria Rooms from September 7th to 17th inclusive. These were fully discussed and it was agreed to take part in the latter two.

The Exhibition is on for ten days, and we want stand helpers and operators to cover 2p.m to 10p.m. It is the intention to put a Rx-Tx station in with our special call, and display our activities by photos, and also have a wall map pin pointing the local Amateurs by map pins with ribbons to their Q.S.L. card. Will you please forward a blank card of yours, or hand it to me at the meeting. The success of this map is in your hands, please do it now. We will also be selling RSGB sales items to the public, those that are applicable. We want a rota of helpers and operators and of course, the afternoons are the most difficult. Will retired and shift workers please volunteer, also the women folk who can mind the stall if an operator is not there. It is a condition that stands must be open and manned throughout opening hours. Free passes will be issued and complimentary tickets will be sent to all Group members. This is a General exhibition of all trades, a fashion Theatre, Cookery etc etc. On the same style as the London Olympia Ideal Homes each year, the whole of the Vic. Rooms is being used and also the outside grounds. We will discuss this more in detail at Fridays meeting.

73's

John.

tear here

I can help on the stand on the following days as an operator( call..... ) or as a helper. (Wives and girl friends welcome to help but please say so.)

	Weds. 7th	8th	9th	10th.	12th	13th	14th	15th	16th	17th
2 - 6p.m										
6 - 10p.m.										

Construction days. Mon 5th      Tues. 6th.

Anyone got two trestle tables we could borrow ?

Q S L Card enclosed ?
