**Clandestine Radios Ken G3XSJ and Colin G3YHV**

Ken operating his B2 transmitter

This month we delve back in time to WW2 . The Model 3/11 or B2 was one of the most successful clandestine sets. But why would someone wanting to restore a vintage radio be seen rummaging through different coloured nail varnishes on a cosmetic counter ? I'm sure Ken will tell us !

Colin's home made Paraset

Colin will bring along his Paraset and perhaps, with luck, show it working.

**Don't forget—every month we have a fun raffle—a couple of great prizes to be won!**

**GJ6YB** operated from Jersey during IOTA at the end of July . We worked over 3500 stations and a few pictures above may give you an idea of the setup.

Top and bottom left and right the main caravan “run” shack ,middle and bottom right the mult station in the rather vintage but weather proof tent! Results in October.
