RADIO AMATEUR
CALL - BOOK
6th EDITION
JUNE 1988

COMPILED AND EDITED
BY G4UHQ and GØJKU

THE BRISTOL AND DISTRICT CALL BOOK

Since 1972, the Bristol Call Book has seen five editions in which data were collected, prepared and published by local amateurs.

No edition had appeared since 1985 and the North Bristol A.R.C. Committee decided to produce a new edition which, it was felt, would be of use to the many amateurs and S.W.L.'s living within the region.

It was decided that the whole of the Bristol and District Postal Area should be covered in this latest edition, hence the minor change in title. The chief source of information has been the RSGB Winter 1987/88 Call Book and in order to ensure that as few omissions as possible were made, all local A.R.C.'s Secretaries were contacted for up-to-date information, especially that concerning new call signs. Nevertheless we may have unintentionally omitted some entries and to anyone concerned we apologise. It is worth noting that due to the extended area covered and the growth in the popularity of our hobby, the number of entries now exceeds 900.

Several new features are included, i.e. a map showing the extent and numbering of the Bristol Postal District areas (courtesy of the Post Office), a table showing the approximate date of issue of the U.K. Amateur call signs, a list of useful addresses, centres at which the R.A.E. may be taken, details of local Slow Morse practice transmissions and local repeaters.

We are most grateful to those who have assisted us in the preparation of the Call Book, particularly our Club Chairman, Eric, G2FXO, Alan, G4YQQ, for help with the advertisements, Ken, G5KT, for his historical note and Ted, G3JMY, for details of the Bristol Activity Award.

We do hope that you enjoy using the Call-Book.

73 Brian, G4UHQ
Alan, G0JKU

IN THE BEGINNING ...

The first Wireless Telegraphy Act was passed by Parliament in 1904 and in consequence the activities of wireless experimenters were legalized. A Mr Charles H. Tilsley in Bristol was the first, not only in Bristol, but in the South-West of England to obtain a licence. He was able to send signals two miles across the City in 1906.

The Bristol Wireless Association was formed in June, 1913 at, it is believed, 141, Redland Road. The joint Honorary Secretaries were R.W.G.Cox, (COX) and N.M.Driver (DXX). The Treasurer was G.W.Tonkin, (TBX) the father of Geoffrey, now G5RQ. Other prominent members were A.W.Fawcett, (ASX), A.C.Davis, (DXX) and Rev. W.P.Rigby who became 2GV in 1923. These call-signs, eg DXX were "spark-days" call-signs and were issued from 1910. All contained the letter 'X' denoting 'experimental'. If power were limited to under 10 watts, then the experimenter could designate his own call-sign. Later call-signs, e.g.2GV used the 'new' international agreement whereby the U.K., in view of its very large number of experimenters, was allocated three of the available ten numbers, i.e. 2,5 & 6.

The reports of club meetings appeared in the early editions of 'Wireless World' but were very few and far between. The earliest was December, 1913. It appears that the local Association lapsed in 1923 when it is believed that L.F.White(2IV) was the Secretary. An establishment, known as "White's Emporium" in Victoria Street, sold a great deal of W.W. I surplus equipment. In 1923 the Bristol Radio Society was formed, absorbing, it seems, membership of the Wireless Association. The records and minutes of the Bristol and District Radio and Television Society were destroyed in the blitz on Bristol in the early part of the War. The final change of name took place in 1931 when it became the Bristol RSGB Group.

Ken, G5KT

CITY OF BRISTOL RSGB GROUP

The Group meet at the Small Lecture Theatre, University of Bristol, University Walk, Clifton. Meetings commence at 7.30 pm and are usually held on the last Monday of the month (unless the date coincides with a Bank Holiday, when the meeting is brought forward by one week). A talk on some aspect of Amateur Radio is programmed for most meetings.

Other activities sponsored by the group are two mobile picnics held in one of the local beauty spots, a Christmas party and finally, the highspot of the year's activities, the organisation of the Longleat Mobile Rally. This rally, which has grown to be one of the most popular mobile rallies in the rally calendar, is held at Longleat Park, home of the Marquis of Bath and one of the Stately Homes of England.

For any further information on the Group and it's activities please contact the Hon. Secretary, G8VPG QTHR.

THE BRISTOL ACTIVITY AWARD

The Certificate for this Award is a worthwhile addition to any radio shack. It is awarded to any station in any country which logs a sufficient number of contacts with Bristol stations in any of the postal districts BS1-BS21 inclusive. Short wave listeners may also apply, subject to confirmation by a referee, or through submission of QSL cards. It is not necessary to be a member of the RSGB.

Points will be gained for each of the contacts made by radio as shown below. For the basic One Star Award a minimum of 100 points is needed and endorsements can be subsequently obtained for each additional 100 points. An endorsement can be requested for "Worked All Bristol Postal Districts" if contacts are made with all 21 postal districts.

Bristol stations are asked to inform their contacts of the existence of the Award and to pass on all relevant information, including postal district and points value for the contact, and repeat it on their QSL card. Stickers for this purpose are available from the Bristol Activity Award Manager, G3JMY QTHR.

The Award is designed to promote amateur radio activity in the Bristol area. Each Bristol station may be contacted once only in each particular mode on each band and Portable and Mobile operation will be taken as separate from the base station contact, provided that the Bristol station is still operating within any of the prescribed postal districts (BS1-BS21). Contact may also be made via repeaters or satellites. In the case of Special Event, Field Day or Club Stations within BS1-BS21, such contacts rate double the points allocation.

When 100, or multiples of 100, points have been accumulated the log extracts, under separate band headings, must be confirmed by another amateur, and forwarded to the Bristol Activity Award Manager, G3JMY QTHR, together with name, callsign and full station location details. Applicants for endorsements will be issued with a new up-dated certificate. U.K. applicants whose stations are located outside Bristol should enclose a 1st class letter postage stamp with their application. Overseas applicants should enclose two IRC's.

A typical completed certificate is shown opposite, with the kind permission of Jean, G0AWX.

Points can be claimed as follows for contact with a Bristol Station.

Claiming Station

Band	In Bristol	U.K.	Outside U.K.
160m to 70cm	4	5	10
23cm and 13cm	5	10	50
Below 13cm	----- 25 + 1 per Km -----		

The Bristol Amateur whose callsign appears most times in applications for the Award in the year (ending December 31st) will receive a CASH AWARD of £10. This will apply in each succeeding year until further notice.

RAYNET

RAYNET, (the Radio Amateurs emergency NETWORK) is an organisation which exists to provide a communications resource for the community in times of need. Members meet regularly to train in message handling procedures, and to practise and organise for the challenge of emergency communications. They work under the terms of the amateur licence for the User Services (British Red Cross Society, St John Ambulance, Police or County Emergency Planning Officer), providing additional communications as needed. Their activities are not confined solely to local problems; valuable assistance having been provided in many instances of international disaster relief. Much of the network's regular activities are carried out in much less unusual circumstances, with the establishment of safety cover operations in support of events such as county shows and marathons.

SEVERNSIDE TELEVISION GROUP

Formerly Bristol FM TV Group

The Group has constructed and is now operating GB3ZZ, the 1.3 GHz Bristol FM TV Repeater located at Filton. The Group also promotes and arranges a variety of activities for all aspects of the Amateur Television hobby. The Group enters TV Contests, holds regular social meetings, publishes a newsletter and markets a number of ATV products. Full details of membership are available from:-

Membership Services Officer

Bryan Collins G4YQR

144 Longmead Ave.

Horfield, Bristol BS7 8QQ

Tel. Bristol 48768

Listen out for local TV activity on the international talk-back and calling frequency of 144.750 MHz FM.
