**Change for the Better
and get
Change in your Pocket**

The new ADI AT-600 is made by the fourth largest computer company in the world. With resources far in excess of the Japanese competition, it is hardly surprising that more and more people are waking up to the fact that ADI from Taiwan not only offers superior performance, it also offers far better value. Independent tests have confirmed this. So before you pay Japanese inflated prices, how about considering something better. The change will be in your pocket as well as in performance!

ADI AT-600 Dual Bander

**See our STAND here today or contact us direct after the Rally
22, Main Road, Hockley, Essex. SS5 4QS (01702) 206835**

Message from the Chairman

Welcome to the 1997 Longleat Rally. This year, as many of you will know, is very important to us, as we celebrate our 40th Anniversary, making this rally the longest running such event in the country.

As you go around today, enjoying the rally, spare a thought for the foresight of the small number of people who thought it would be a good idea to have a social get together for the radio amateurs of Bristol and Bath. From those small beginnings, with two tiny tents and about 40 cars, the rally has grown into what you see today.

To mark this important anniversary we are very pleased to welcome *Practical Wireless* and *Short Wave Magazine*, who are this year sponsoring the rally and have produced this Rally Programme, the first for many years. Of course, without doubt the success of the rally is in no small way due to the splendid setting of Longleat

House and its superb grounds. The City of Bristol Group of the RSGB would like to express their gratitude to Lord Bath and his staff for their co-operation and help in making the event the great success that it undoubtedly is.

Another very important factor in the success of the rally over the years is the hard work and dedication of all the volunteers and members of other local radio clubs who have unstintingly given of their time and help. Anybody who has assisted on the Bring & Buy stalls will testify how frenetic and demanding being a volunteer can be! Finally let us not forget the RSGB City of Bristol Group who organise and fund the event.

So, please enjoy the rally. Hopefully we shall see you in ten years time when we celebrate our Golden Anniversary.

SR STANDARD®

new product

Next to quality and innovative engineering, Standard put receive performance as their No.1 priority. Their new range of Handies, mobiles and scanners are no exception. They were one of the very first to offer a high performance 2M handie back in the seventies and are currently the only manufacturer to build a Triple Band FM mobile with 2/6 & 70 fitted as standard and a Twin Band handie with a power booster for mobile use.

FEATURES

- Tested tough against intermod with Double Balanced Mixer (DBM) and Tracking Front-End
- DTMF remote control with HT
- Cross-band repeat, 6M, 2M and 70cm with CTCSS encode/decode
- Full Duplex cross-band operation with CTCSS encode/decode
- 7 priority hyper frequencies
- 1200-9600 packet interface
- Antenna Triplexer Built-in one antenna for all bands
- Dual-frequency display: left side 6M, 2M and 70cm, right side 2M and 70cm
- Frequency Receive Range:
Left band 44.000-99.995 MHz
100.000-225.000 MHz
240.000-530.000 MHz
Right band 100.000-200.000 MHz
260.000-510.000 MHz
550.000-1020.000 MHz
(both including AM aircraft)
- 45 Watts 6M, 50 Watts 2M and 35 Watts 70cm (3W Low, 10W Medium selectable) transmit ham-bands

E&OE

OPTIONAL ACCESSORIES

- CAW590 split cable for mic
- CAW591 3M extension cable for LCD display
- CAW592 5M extension cable with connecto for mic and speaker
- CAW593 8M extension cable with connection for mic and speaker
- CMB5900 mounting bracket for display
- CMU161 200 channel memory chip
- CTN5700 Dual CTCSS
Size: 140mm W, 40mm H, 173mm D
Weight = 1.2Kg (2.65lbs)

MEMORIES

- 80 memories (each side); stores frequency, offsets, CTCSS tones and more
- Expandable 200 memories each side with optional, CMU161
- CTCSS Encode Standard
- Frequency steps, 5, 6.25, 10, 12.5, 15, 20, 25, 30, 50 and 100 kHz.
- Paging/Coded squelch
- DTMF autopatch dialing, 12 memories, 6 per side, 15 digits
- Eight kinds of scan: 1 MHz, entire band, program, memory, block memory, program memory, memory scan, memory and CTCSS scan

DISPLAY

- Snap-on front display or remote the radio in the boot or under the front seat
- Back-lit Keypad and Display
- MY key, store favourite function
- TX Time-Out-Timer 3, 5, 15 mins
- Auto power-off 3, 6, 9 hrs
- Auto mute opposite band -20dB
- Beep-tone off, low or high
- Cooling fan built-in.
- Mobile bracket and power cord (2M) included
